

November, 2021

Chapter Officer’s Tool Box

IPSSA Chapter Presidents and Treasurer’s—Let’s get registered!

The Weekend of Inspiration, formerly known as Leadership Seminar, Feb 4-6, 2022 in San Diego is fast approaching and we still have many who have not registered. Please note we will not be registering on site—along with needing to have an accurate food count for the meeting lunch, we are trying to have a “low contact” event to limit risk with Covid-19. Also, space is filling up at the Kona Kai resort—we have a large block of rooms but at some point the hotel will release those to be available for other guests. Due to IPSSA not having a meeting last year all IPSSA Presidents and Treasurers are expected to attend and fines will be assessed for those who do not come. Register Here: [Weekend of Inspiration Conference - Tactics, Tools and Ideas Worth Sharing \(ipssa.com\)](#)

IPSSA Policy states:

ANNUAL LEADERSHIP SEMINAR: It is mandatory that all incoming chapter presidents and incoming treasurers attend the annual Leadership Seminar. It is further encouraged that other officers of the chapter attend.

FINE FOR FAILING TO ATTEND LEADERSHIP SEMINAR: Chapter presidents and treasurers who take office in the previous election period are required to attend the subsequent leadership seminar aka Weekend of Inspiration. If they fail to attend the chapter will be fined \$500 for each person.

You can find this and all other policies in the IPSSA Member Portal simply log in, go to Resources link in the blue menu bar, Under IPSSA Governance menu you will find a link to POLICY.

If you are no longer the Required Officer—Please pass this to the appropriate person and contact

Water Chemistry—are your members in compliance?

In August we sent out an announcement regarding the new Water Chemistry Certification Exam testing site and alternate certificates which can be used for compliance.

How do you know if a member needs to certify?

On your chapter roster there is a column which notes if a member has passed the test.

The full policy plus alternate certifications accepted can be found here: [Water Chemistry - Independent Pool and Spa Service Association \(ipssa.com\)](#)
